WNM Communications Announces Ambitious 5-Year Plan to Deliver 100/20 Mbps Internet to All Customers

FOR IMMEDIATE RELEASE

Silver City, NM – May 31, 2024 – WNM Communications, a leading provider of telecommunications services, is proud to announce its ambitious 5-year plan to ensure that all customers have access to high-speed internet with a minimum speed of 100/20 Mbps and up to 1 Gig speeds in qualifying areas. This strategic initiative underscores WNM Communications' commitment to enhancing connectivity and supporting the growth and development of the communities we serve.

WNM Communications has already begun making improvements with ongoing fiber construction in all serving areas including Socorro, Catron, Grant, Luna, and Hidalgo counties, to enhance the internet experience for consumers. Over the next five years, we will undertake significant infrastructure upgrades, leveraging cutting-edge technology to expand and enhance our network. This plan includes the deployment of advanced fiber-optic networks, improvements to existing infrastructure, and strategic partnerships to accelerate our rollout. By the end of this period, every customer will benefit from reliable, high-speed internet that meets their evolving needs.

Wayne Baxter, Interim General Manager of WNM Communications, stated, "This 5-year plan represents our dedication to providing the best possible internet service to our customers. We understand that high-speed internet is not just a convenience but a necessity in today's world. Our commitment is to ensure that every household and business in our service area has access to the speeds they need to thrive in a digital world."

Kory Webb, Senior Engineering Manager of WNM Communications, added, "We are excited about the technological advancements and investments we are making to achieve this goal. Our team is working tirelessly to upgrade our infrastructure, and we are confident that these improvements will significantly enhance the online experience for our customers. Our focus remains on reliability, speed, and customer satisfaction."

In addition to improving internet speeds, WNM Communications is committed to supporting the communities we serve. This includes initiatives such as partnering with local schools to enhance educational and distance learning opportunities, healthcare institutions to enable the ability to access care virtually, supporting anchor institutions as well as small businesses with tailored internet solutions,

and participating in community events and sponsorships. WNM Communications believes in giving back and playing an active role in the development and prosperity of our local areas.

The company invites customers and community members to stay informed about the progress of this initiative through regular updates on our website and social media channels. WNM Communications looks forward to working closely with the community to achieve our shared goals.

About WNM Communications: WNM Communications is a leading telecommunications provider committed to delivering high-quality internet and phone services to communities in Southwest New Mexico. With a focus on customer satisfaction and community engagement, WNM Communications strives to connect people and businesses to what matters most.
