## **WNM Communications Announces Extended Broadband Discount (EBD) for Current ACP Recipients**

FOR IMMEDIATE RELEASE

**Silver City, NM – June 5, 2024** – WNM Communications, a leading provider of high-speed internet, phone, and TV services, previously announced the launch of its Extended Broadband Discount (EBD) program. This initiative is designed to bridge the gap for current Affordable Connectivity Program (ACP) recipients after the FCC discontinued the program due to a lack of funding.

### **The Affordable Connectivity Program (ACP)**

The ACP was a federal government program that provided a discount on monthly broadband internet service for qualifying low-income households. It played a vital role in closing the digital divide by making internet access more affordable for millions of Americans. Unfortunately, the FCC has been forced to discontinue the program due to congressional funding limitations.

### **WNM Communications Steps Up with EBD**

Understanding the critical role internet access plays in today's world, WNM Communications is committed to keeping its customers connected. The EBD program extends a similar discount to current ACP recipients who are WNM Communications subscribers. This will help ensure uninterrupted internet service and continued access to online resources for education, work, healthcare, and more. All ACP recipients as of May 31, 2024, will receive the EBD service through January 31, 2025.

“At WNM Communications, we are proud to be the community leader in broadband service,” says Kandra Young, Director of Customer Experience at WNM Communications. “We believe internet access is essential in today’s society, and we are dedicated to finding ways to give back to the communities we serve. The EBD program reflects this commitment by ensuring our most vulnerable customers can stay connected and continue to thrive in a digital world.”

**For more information about the EBD program, please visit [www.wnmc.com/acp](http://www.wnmc.com/acp) or contact WNM Communications at 800-535-2330.**
